

EDUCATION

- 2022 Ph.D. Environmental Science and Management. University of California, Santa Barbara
- 2017 Master of Environmental Science and Management. University of California, Santa Barbara
- 2015 B.Sc. Oceanography, *Honors*. Universidad Autónoma de Baja California (Mexico)

ACADEMIC APPOINTMENTS

- 2024 – present Assistant Professor. Department of Environmental Science and Policy, Rosenstiel School of Marine, Atmospheric & Earth Science and Frost Institute for Data Science & Computing, University of Miami
- 2022 - 2024 Postdoctoral Scholar. Oceans Department, Doerr School of Sustainability, Stanford University / Comunidad y Biodiversidad A.C.
- 2020 - 2022 Graduate Student Researcher. Environmental Markets Lab, University of California, Santa Barbara
- 2019 - 2020 Graduate Student Researcher. National Center for Ecological Analysis and Synthesis

AREAS OF INTEREST

Coupled natural-human systems; Human dimensions of marine conservation; Climate change adaptation; Environmental markets; Marine policy design and evaluation; Spatial environmental economics

GRANTS & AWARDS

Research Grants

- 2024 PADI Foundation Research Grant (\$7,000). Economic impacts of sargassum blooms on the diving industry.
- 2021 Environmental Solutions Research Grant (\$20,000). Schmidt Family Foundation. Incentives for Equitable and Cost-effective Marine Conservation
- Dissertation Fellowship (\$25,000). UC Institute on Global Conflict and Cooperation. Designing Conservation Markets for International Cooperation
- 2020 H. William Kuni Research Award (\$14,950). Economic and Ecological responses to global economic shutdowns in coral reef communities. With Erin Winslow and Nathaniel Grimes
- 2019 Mohamed bin Zayed Species Conservation Fund (\$11,500). Unveiling the Ecology of Giant Sea Bass (*Stereolepis gigas*). With Arturo Ramírez-Valdez and Kyla Blincow
- 2018 H. William Kuni Research Award (\$15,000). The proliferation of Fish Aggregating Devices (FADs) in the Caribbean Sea. With Molly Wilson, Julia Lawson, and Ignacia Rivera

- 2017 PADI Foundation Research Grant (\$6,600). Natural history of the giant sea bass (*Stereolepis gigas*) in Mexican waters. With Arturo Ramírez-Valdez and Paula Sgarlatta.

Fellowships and scholarships

- 2017 Doctoral Fellowship (\$61,194). UC Mexus. Complimentary funding to complete a Ph.D in Environmental Sciences

Latin American Fisheries Fellowship (\$57,400). University of California, Santa Barbara. Complimentary funding to complete a Ph.D in Environmental Sciences

International Student's Doctoral Fellowship (\$146,619). Consejo Nacional de Ciencia y Tecnología (CONACyT). Four years of funding to complete a 5-year Ph.D in Environmental Sciences

- 2015 Latin American Fisheries Fellowship (\$42,000). University of California, Santa Barbara. Complimentary funding to complete a Master's in Environmental Science and Management

CONACyT International Student's Master's Fellowship (\$64,946). Mexican Government. Funding to complete a Master's in Environmental Science and Management

Awards and recognitions

- 2019 Best presentation. Integrated Marine Biosphere Research. Awarded best presentation at the Future Oceans Conference

Honorable Mention. Integrated Marine Biosphere Research. Runner-up for best student project at the IMBeR ClimEco6 Summer School

- 2014 Pedro Mercado Sánchez National Oceanography Award. Asociación Mexicana de Oceanólogos. For the best undergraduate research project presented at the XVIII National Oceanography Conference

Honorable Mention. Consejo Nacional de Ciencia y Tecnología (CONACyT). Runner-up for best student paper at the 2nd State Meeting of Young Researchers

Distinguished Student of the Oceanography program. Facultad de Ciencias Marinas, Universidad Autónoma de Baja California. Ranked first in academic performance for the overall major in 2014

- 2013 Best presentation. Consejo Nacional de Ciencia y Tecnología (CONACyT). For the best student paper at the 1st State Meeting of Young Researchers

Best presentation. Facultad de Ciencias Marinas, Universidad Autónoma de Baja California. Best undergraduate presentation at the XXI Student Conference

- 2012 Honorable mention. Facultad de Ciencias Marinas, Universidad Autónoma de Baja California. 2nd Place for the best undergraduate presentation at the XX Student Conference

Distinguished Student of the Oceanography program. Facultad de Ciencias Marinas, Universidad Autónoma de Baja California. Ranked first in academic performance for the overall major in 2012

MENTORING (* Chair)

Ph.D. Students

2025 Gabriella Berman

M.S. Students

2025 Jennifer Norcross

Master's Group Theses Mentored (Client in parentheses)

2020 Students: Peyton Moore, Ruben Sanchez-Ramirez, Dylan Glave, Elliott Matthews
Project: Marine Extractive Reserve performance in Brazil
Client: World Wildlife Fund Brazil
Faculty Advisor: Steve Gaines

2019 Students: Caio Della Colleta Vianna, Eva Marrero, Kirby Bartlett, Anna Calle, Sandra Fogg
Project: Assessing Brazil's Marine Aquaculture Potential
Client: World Wildlife Fund Brazil
Faculty Advisor: Hunter Lenihan

2018 Students: Edaysi Bucio, Seleni Cruz, Vienna Saccomanno, Juliette Verstaen, Valeria Tamayo
Project: Economic quantification of delaying management in the Midriff Islands, Mexico
Client: Comunidad y Biodiversidad A.C.
Faculty Advisor: Hunter Lenihan

Students: Mario Colon, Daniel Elkin, Lauren Kaapcke, Madison Meltzer, Casey Moorhead
Project: Insurance instruments to leverage natural infrastructure for climate change resilience
Client: The Nature Conservancy
Faculty Advisor: Ashley Larsen & Samantha Stevenson

2017 Students: Fabio Castagnino, Roxanne Diaz, Denise Garcia, Sarah Salem, Camila Vargas
Project: Creating Effective Marine Reserves
Client: Fundación Claudia y Roberto Hernández
Faculty Advisor: Steve Gaines

High school students (Placement)

2024 *Kush Gulati. Redistribution of fishing effort under climate change.

2018 *Alex Reulbach. Small-scale variation in the diet of invasive lionfish. (Marine Biology, UNC)

*Alisha Naidu. Ontogenetic habitat shifts in invasive lionfish. (Computer Science, Williams College)

*Joseph Sausville. Optimal marine reserve design to maximize economic and conservation benefits. (Unk)

TEACHING

Instructor of record

2025 EVR 6XX/5XX - Introduction to Data Management and Visualization for Environmental Scientists

Guest Lecturer

2024 Economic Incentives and Marine Protected Areas. SIO295S - Introduction to Marine Biodiversity and Conservation. Scripps Institution of Oceanography. UC San Diego.

- 2022 The economics of marine conservation. BIO 301 - Frontiers in Marine Biology. Stanford. (67 students)
- 2020 “Package-less” coding: Coding in base R. ESM 206 - Data Analysis and Statistics. Bren School of Environmental Science & Management. UC Santa Barbara (100+ students)
- Marine Conservation in Practice. EEMB 168 - Conservation Ecology. UC Santa Barbara (100+ students)
- 2018 The development cycle of web-based apps. ESM 244 - Adv. Data Analysis and Statistics. Bren School of Environmental Science & Management. UC Santa Barbara (~70 students)

Teaching Assistant for graduate-level courses

- 2020 ESM 206 – Introduction to Environmental Data Science & Statistics with Dr. Allison Horst (100+ students)
- ESM 201 – Ecology of Managed Ecosystems with Dr. David Tilman (86 students)
- 2019 ESM 201 – Ecology of Managed Ecosystems with Dr. David Tilman (82 students)

Data Science Workshops

- 2025 Geocomputation in R
- 2021 EcoDataScience Workshop: GNU make and Makefiles for continuous development (and reproducibility)
- 2019 EcoDataScience Workshop: Collaborative workflows with git and GitHub
- LAFF workshop: Coding ecological models in R
- 2017 EcoDataScience Workshop: Introduction to R Markdown

Other Workshops

- 2022 Use of the CostApp to budget for marine conservation interventions
- 2019 Evaluation and budgeting of Marine Reserves in Mexico
- 2018 Empirical valuation of Marine Reserves effectiveness
- 2017 A general approach and tool to evaluate the effectiveness of no-take marine reserves
- Empirical valuation of Marine Reserves effectiveness
- 2015 REEFCheck California monitoring techniques

Other teaching and mentoring activities

- 2019 Instructor. Family Ultimate Science Exploration, UCSB
- Guest Lecturer. Laguna Blanca high school. How can economics help conserve the environment?
- 2017 Instructor. Colegio Puerto Aventuras (Mexico). Introduction to computer programming in R

ACADEMIC SERVICE

Committees

- 2024 Lecturer search. GIS / Marine Policy lecturer. Rosenstiel School of Marine, Atmospheric, and Earth Science. University of Miami.
- 2020 Faculty Search. Assistant Professor in Environmental Data Science. Bren School of Environmental Science & Management, UCSB
- 2019 Dean's Advisory Council. Bren School of Environmental Science & Management, UCSB
- 2018 PhD Symposium organization committee. Bren School of Environmental Science & Management, UCSB
- 2014 Student Conference Organizer. Facultad de Ciencias Marinas, UABC
- 2013 Student Council. Facultad de Ciencias Marinas, UABC

Working groups and panels

- 2024 Ocean Capital Workshop: Designing the Latin American Ocean Capital Collective. Innovación Azul
- 2021 Data Science communities in Santa Barbara. Master of Environmental Data Science Program, UCSB
- 2019 Palau's National Marine Sanctuary: Managing Ocean Change and Supporting Food Security. NCEAS
- 2017 Marine Spatial Planning in Baja California: Connecting MPA networks in a transboundary context. COBI
Defining Socioeconomic indicators for to evaluate marine protected areas. COBI / TNC
- 2016 Defining Ecological indicators for to evaluate marine protected areas. COBI / TNC

Referee Activity

Bulletin of Marine Science (1), Ecological Modeling (2), Frontiers in Marine Science (6), Gulf and Caribbean Research (1), Nature Sustainability (2), Marine Policy (1), Earth System Governance (1); Ecology & Society (1); Science Advances (1);

PRESENTATIONS (*awarded) _____

- 2025 A market for 30x30 in the ocean. 30x30 Marine Conservation Virtual Workshop. Earth Journalism Network
A global market for 30 X 30. Biodiversity Credits: Opportunities for Coastal Conservation and Restoration. Coastal Quest
- 2023 Economic impacts of marine heatwaves in small-scale fisheries. Latin America & Caribbean Fisheries Congress
- 2022 Distributional impacts of marine protected areas. Harnessing Data and Tech for Ocean Health and Sustainability Conference
Economic impacts of environmental variation in small-scale fisheries. HMS seminar series
- 2019 Status and trends of moored fish aggregating device (MFAD) fisheries in the Caribbean and Bermuda. *72nd GCFI*

*Change in behavior and effort redistribution after implementation of Large Scale Marine Protected Areas. *Future Oceans2*

2018 Effectiveness of community-based marine reserves in small-scale fisheries. *3rd World Small-Scale Fisheries Conference*

2017 A general approach and tool to evaluate the effectiveness of no take marine reserves. *28th International Congress for Conservation Biology*.

2014 Because size matters: Differences in size structure of exploited and unexploited fish populations along the coasts of Baja California, Mexico. *XIV National Ichthyology Meeting and III Latin-American Ichthyology Symposium*.

Biogeographic relationships of fish communities associated to Kelp Forests off the coasts of Baja California, Mexico. *XIV National Ichthyology Meeting and III Latin-American Ichthyology Symposium*.

*Effects of recreational fisheries over sizes and biomasses of fish associated to Kelp Forests. *2nd State Meeting of Young Researchers*.

*Latitudinal distribution of sizes of fish associated to Kelp Forests off the coasts of Baja California, Mexico. *XVIII National Oceanography Conference*.

*Latitudinal distribution of sizes of fish associated to Kelp Forests off the coasts of Baja California, Mexico. *XXII Student Conference at the Marine Sciences School and 1st National Student Conference on Marine and Environmental Sciences*.

Description of feeding habits and ontogenetic changes in the invasive lionfish *Pterois volitans* (Linnaeus, 1758) diet off the coasts of Playa del Carmen, Quintana Roo. *1st Student Conference of Biological Sciences*.

2013 Community relationships of fish associated to Kelp Forests off the coasts of Baja California, Mexico. *1st State Meeting of Young Researchers*

Community relationships of fish associated to Kelp Forests off the coasts of Baja California, Mexico. *XXI Student Conference at the Marine Sciences School*

2012 Contribution to knowledge of diet and biometrics of the invasive lionfish [*Pterois volitans* (Linnaeus 1758)] off the coasts of Playa del Carmen, Quintana Roo, Mexico. *XIII National Ichthyology Meeting and 1st Latin-American Ichthyology Symposium*

*Contribution to knowledge of diet and biometrics of the invasive lionfish [*Pterois volitans* (Linnaeus 1758)] off the coasts of Playa del Carmen, Quintana Roo, Mexico. *XX Student Conference at the Marine Sciences School*

NON-ACADEMIC APPOINTMENTS

2021-2022 - Independent Consultant

- Bioeconomic estimation and simulation of costs and benefits of select community-based marine reserves
- Review of 20 year of community-based marine conservation in Mexico
- Evaluation of fisheries subsidies in small-scale fisheries

2018-2019 - Independent Consultant

- Web-app development to calculate operational costs of implementing community-based marine reserves.
- Prepared materials and taught a course on app functionality to environmental managers, NGO members, and government officials.

2018-2019 - Independent Consultant

- Prepared materials and taught three courses on marine reserve evaluation methods to environmental managers and NGO members.

2017-2018 - Independent Consultant

- Performed a national evaluation of marine reserves in Mexico with case studies from the Gulf of California, Pacific and Caribbean.

2015 - 2016 - Data analyst. Mexican Tuna Purse Seine Fleet Research Trust

- Assembled and maintained a spatio-temporal database of landings by the Mexican tuna purse seine fleet
- Conducted spatiotemporal analysis of catch and length distributions to inform management

2015 - 2015 - Field Assistant & Data Manager. Comunidad y Biodiversidad (COBI)

- Coordinated fieldwork to evaluate voluntarily established marine reserves along Baja California

- Produced 3 brochures, 1 interactive visualization and a peer-reviewed article on occurrences of tropical fish in temperate regions

2013 - 2013 - Research Intern. Fundación para el Estudio y Conservación de Condriktos, SQUALUS

- Performed stomach content analysis, trophic ecology, and age-and-growth analysis of sharks and rays
- Produced two reports highlighting main findings

2013 - 2013 - On-board scientific observer. Fisheries Ecology Lab, CICESE

- Performed research on white shark and caged diving interactions in Guadalupe Island, Mexico
- Used standardized etology charts to record white shark behavior

2012 - 2012 - Oceanographic Cruise Research Intern. Oceanography Department, CICESE

- Responsible for performing midwater zooplankton trawls and CTD / ADCP casts

2011 – 2015 - Research Assistant. Kelp Forest Ecology Research Group, UABC

- Underwater ecological surveys to identify fish species in Kelp forests
- Developed software to standardize the input of information
- Analyzed data to produce reports and publications of main findings

DATA SCIENCE SKILLS

Leadership activities

EcoDataScience: Organize workshops and maintain website; Group of 250+ members: eco-data-science.github.io

ERRE – A blog about “Rstats”, in Spanish: erre-esp.org

Software development

startR: An R-package for internal workflow management: emlab-ucsb.github.io/startR/

CostApp V2.0: A web-based app to estimate costs of marine conservation interventions: innovacionazul.shinyapps.io/AppCosteo/

CostApp: A web-based app to estimate costs of marine-reserve implementation: innovacionazul.shinyapps.io/AppCosteo/

MAREA: The Marine Reserve Evaluation App; A web-based app to evaluate conservation interventions: innovacionazul.shinyapps.io/MAREA

GPSelector: A web-based tool to optimize the allocation of students to group projects at the Bren School of Environmental Science & Management: jcvd.shinyapps.io/GPSelector/

R and RStudio - Numerical simulation, Geospatial computing, Machine learning, Big Data pipelines, Package development, Shiny framework, R Markdown, Unit Testing, Continuous Development and Integration

Git & GitHub - See: <https://github.com/jcvdav/>

Google Cloud Platform - BigQuery (Standard SQL), ComputeEngine, CloudStorage

OTHER SKILLS & TRAINING

Languages

- Spanish (Native)
- English (Fluent; TOEFL iBT: 102; graduate school completed in English)
- French (Basic; DELF A2 certification)

SCUBA certifications

- AAWS Scientific Diver
- PADI Open Water Diver
- PADI Advanced Open Water Diver
- PADI Rescue Diver
- FCM-UABC Scientific Diver
- TDI Side mount Diver
- GUE Fundamentals (Tec pass)
